Corsa Capital Ltd.
(An Exploration Stage Company)
Notes to the Financial Statements
For the Nine Months Ended August 31, 2008

Canadian Funds

1. Nature and Continuance of Operations

Corsa Capital Ltd. ("Corsa" or the "Company") was incorporated on June 14, 2007 under the Business Corporations Act (British Columbia), and is an exploration stage enterprise focusing on the acquisition, exploration and development of economic gold and other precious and base metal properties. On April 17, 2008, the Company was listed on the TSX Venture Exchange ("TSX-V") under the symbol "CSO".

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles in Canada applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations rather than through a process of forced liquidation. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

As at August 31, 2008, the Company has no source of operating cash flows and has not yet achieved profitable operations, has accumulated losses since its inception, and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due.

2. Significant Accounting Policies

These interim financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles and follow the same accounting policies and methods of their application as the most recent annual financial statements except that the Company has adopted the following CICA guidelines effective for the Company's first quarter commencing December 1, 2007. These interim financial statements do not include all disclosures required by Canadian Generally Accepted Accounting Principles for annual financial statements and accordingly, the interim financial statements should be read in conjunction with the audited financial statements and notes thereto of the Company as at November 30, 2007.

Recent accounting pronouncements

The Following accounting pronouncements are applicable to annual and interim periods beginning on or after December 1, 2007:

CICA 1535, Capital Disclosure require that a company disclose information that enables users of its financial statements to evaluate its objectives, policies and procedures for managing capital including disclosures of any externally imposed capital requirements and the consequences for non-compliance.

CICA 3862, Financial Instruments – Disclosure requires disclosure of information related to the significance of financial instruments to a Company's financial position and performance. A company is also required to disclose information related to the risks of its use of financial instruments and how those risks are managed.

2. Significant Accounting Policies (Continued)

CICA 3863, Financial Instruments – Presentation established standards for presentation of financial instruments. It deals with the presentation of financial instruments and the circumstances in which financial assets and financial liabilities are offset.

The adoption of these new pronouncements does not have a material effect on the Company's financial statements.

3. Resource Property Costs

Details are as follows:

	Acquisition Costs	Exploration Costs	Cumulative as at August 31, 2008	Cumulative as at November 30, 2007
Sy, Nunavut	\$ 53,688	\$ 244,758	\$ 298,446	\$ 121,483

Sy Property, Nunavut

On July 20, 2007, the Company entered into an agreement with Kaminak Gold Corporation to acquire up to a 60% interest in the Sy Property, located on the Archean Yathkyed Greenstone Belt in Nunavut, by making the following Unit issuances and expenditures:

Unit issuances:

i)	100,000	Upon listing on a recognized stock exchange * (Issued April 17, 2008)

3. Mineral Properties (Continued)

Each "Unit" consists of one common share of Corsa and one common share purchase warrant, each warrant being exercisable to purchase one common share of Corsa for a twelve month period following the date of issuance at a price per common share to be determined by taking the weighted average closing price of the common shares of Corsa on the TSX Venture Exchange for the twenty consecutive trading days immediately prior to the date of issuance. All of the payment, expenditure and Unit obligations may be accelerated at Corsa's option.

It is acknowledged that the Company's mineral rights do not include diamond rights. The property is subject to a 2% NSR/GOR.
